```

A scatter plot showing the relationship between the logarithm of the Second Component (x-axis) and the logarithm of the Third Component (y-axis). The x-axis ranges from 0.0 to 2.0, and the y-axis ranges from 0.0 to 1.5. The plot displays two data series: 'rest' (red dots) and 'true' (cyan dots). The 'rest' series is concentrated in a dense cluster around (1.75, 1.05), with a few outliers at lower values. The 'true' series is also clustered around (1.75, 1.05) but includes a few points at lower values, notably one near (0.0, 0.15) and another near (1.0, 0.65).
