

Lnc RNAs: All

```
lncRNA group = IDRlessthan0_1 ::: data cols = bothPullDowns
```

A scatter plot showing the relationship between the log(Second Component) on the x-axis and the log(Third Component) on the y-axis. The x-axis ranges from 0.0 to 2.0, and the y-axis ranges from 0.0 to 1.5. Data points are categorized by 'withinSubset' into 'rest' (red circles) and 'true' (teal triangles). The 'true' subset includes points 7410 and 240990. The 'rest' subset includes points 249532, 254682, 235335, 232533, and many others clustered between x=1.5 and x=2.0. A legend on the right indicates the 'withinSubset' categories.
