

A scatter plot showing the relationship between the log(First Component) on the x-axis and the log(Third Component) on the y-axis. The x-axis ranges from 0.0 to 0.45, and the y-axis ranges from 0.0 to 0.35. The plot displays two data series: 'rest' (red circles) and 'true' (teal triangles). The 'rest' series consists of numerous points, many of which are labeled with their corresponding 'id' values. The 'true' series is much smaller, with only a few points visible. A legend on the right side of the plot identifies the two series: 'rest' (red circle) and 'true' (teal triangle). The plot is overlaid with a light gray grid.

Y-axis: log(Third Component)

X-axis: log(First Component)

Legend: withinSubset

- rest (red circle)
- true (teal triangle)

Key labeled points (id, log(First Component), log(Third Component)):

id	log(First Component)	log(Third Component)
7372	0.00	0.00
231025	0.05	0.07
234160	0.05	0.04
255495	0.10	0.02
